

# COVID-19 Gathering protocols - Level 2

Please note, the below is allowed from midday May 29 2020

## 'Gathering' definition

A gathering is where people come into contact and do not maintain 2m distancing.

## Does the 100 include participants, officials, coaches and spectators?

Yes, if they were all in one area. However we will be setting up a separate area for spectators away from the players and coaches. As part of this requirement, spectators will need to keep 2m physically distanced. Areas for spectators will be clearly marked, and groups will not be able to mix. The 2m requirement will mean we are not able to have as many people watching - we request that only one spectator per player attend.

## Do spectators need to be contact traced if outside the activity gathering itself - 2m or more?

Yes - everyone who comes into our centres needs to scan in and out of our centres - this is a requirement of being onsite with the Y.

## Information for everyone visiting a YMCA

### Wash your hands

This is advised for at least Pre and post-workout or other activity. Washing should be with soap and water for 20 seconds and hands dried thoroughly.

### Sneeze or cough into your elbows

Use tissues provided, dispose of used tissues immediately and wash hands thoroughly after coughing or sneezing

### Spray and wipe all equipment

Use the cleaning products provided to spray and wipe all equipment that you contact during your time at the centre.

### Maintain physical distancing

Follow the guidelines at your centre for maintaining physical distancing. Be mindful of common areas such as bathroom and corridors. If possible, arrive and leave in your sports clothes to minimise time spent in a shared space.

### Stay home if you are sick

Please don't come into our centre if you are unwell.
